WE CUSTOMIZE YOUR OWN BOOKING SYSTEM

A smart tool for you to simplify daily management.

HKC provides an application that would fit in with completely online facilities / room and seat bookings. It is a self-explanatory bi-lingual system that appeals to the users is how well and ease they can make facilities / room / seat bookings , check the booking status, view the booking record and notice information or cancelling the non-expired booking via Internet.

- **Provide Facilities / Room / Seat booking system**
- **System can be either on-premises or cloud based**
- **Options to smart tag, smart lock and video door phone**

Features

Modular based – independent modules to fit your needs

Different types of users – different access right for different types of users, e.g. admin & general user

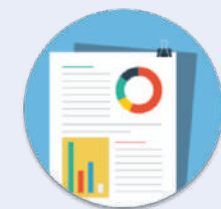

24/7 basis – the system works all the time. Users and admin can use the system anytime

One stop booking system – from booking to payment and access control

Bi-lingual – Chinese and English version

Real-time booking – user can view the real-time availability of facilities /room / seat and make booking

Configurable - customization and flexible configuration

Benefits

Improve users' satisfaction

- User-friendly booking system allows users booking facilities / room anywhere and anytime.
- Just a few steps to proceed booking and users can review and manage the booking status in the system.

Hassle-free management of booking

- Staff can work more efficiently. No more tie to a phone waiting for user calls. Work load is cut.

Less "no-show" case

- Prospective users who reserve online are much more likely to show up. And in some cases when someone doesn't show up, HKC booking system can automatically free the reserved facilities / room, making it available for booking. Appointment reminders are also a great way to ensure that users will attend.
